SHEETINGS and SHEETS
Sale at
BLOM'S
This Week.

LOCAL AND GENERAL
The Big Nickel Scratch Pad for sale at the Bulletin office for five cents, is one inch thick, made up of two hundred sheets of good paper. Six for a quarter.

Automobiles \$4 per hour. Phone 6.
Call and see Mike Paton at the Encore.
Sherette, the latest in white goods, at Jordan's.
Mrs. Dickerson's clearance sale is still going on.
All domestics underpriced at Blom's this week.
J. Carlo, loan office, has bargains in jewelry and money to loan.
Go to Blom's today and get sheetings and domestics below cost.
Physical culture and massage given by Prof. Baron, 51, 52 Young Hotel.
Automobiles—hack rates. Empire stand, Phone 213, Bethel and Hotel.
A. M. S. means American Messenger Service. Our boys are ants not wases.
Go to the Fashion Salon when you want a delicious cold drink, made right.
Inter-island Agent McKay, of Hilo, came in on the Mauna Kea this morning for a hurried visit.
If you want a good job done on an auto or carriage take it to Hawaiian Carriage Mfg. Co., 427 Queen St.
A large paper balloon passed over Palolo valley late yesterday afternoon, dropping some place in the Kaimuki district.
It was a most beautiful day at the beach yesterday, still there were very few people out there to take advantage of it.
Charles Flynn of Pahala, who has been spending a few weeks vacation in Honolulu, intends returning to the big island next Friday on the Mauna Loa.
The Honolulu Iron Works has received an order for a new crusher for the Hoia mill. When in operation this crusher will double the output of sugar.

Monte Montgomery made the Volcano trip and reports the crater as being very active. Monte also took in the races, and his description of them is very amusing.
A band of religious enthusiasts made their advent on the main streets of the city Saturday night. The usual warnings against sin and particularly dancing were given.
Manager Wright of the Volcano Stables, Hilo, is in town on a short visit. He reports things as being busy in the rainy city and the weather as something beautiful.
New Athletic underwear. B. V. D. goods, new shirts and pajamas, in light weight and pretty colors. A fine lot of new suitings at Yee Chan & Co.'s, King and Bethel street.
The clerical department of the police force would be pleased if all merchants with claims against the police would send in their bills at once so that a settlement can be made.

Poultry and pigeon show entries may be left at E. O. Hall & Son's poultry supply house, where Mr. L. C. Ables can furnish intending exhibitors entry forms and safe council till 5 o'clock Wednesday. Liberal cash prizes, silver cups and elegant silk ribbons make it worth while.
The wren sailing race yesterday was spoiled by the capsizing of the Ivy which was sailed by Max Boite. A rule of the Honolulu Yacht Club says that if any boat capsizes the race is declared off. This was done and the event will be resailed next week.

HILO RACES WERE SOMEWHAT SPOILED
(Continued From Page 1)
Kukui Ranch won in good style; time 1 min. 28 secs.
No. 5 was supposed to be a race for linaus, but as there were no entries the event fell through.
Then the best race of the day was started, and it was the free-for-all, distance six furlongs. There were four starters and the field was well bunched together for nearly the whole journey. When half a mile had been thrown behind, Major Collier forged to the front but Webber, who was running a very different race to that which he put up in the big event, challenged the Major and a beautiful race took place right up to the wire. Major Collier got the verdict from Webber and Pocahontas ran into third place; time 1 min. 30 3/4 secs.

The half-mile cowboy race fell through for want of entries, and then the three-quarter mile Hawaiian breed event came on. There were three starters, viz: Young Sam, Genevieve and Princess Armo. They finished in that order and cut out the six furlongs in 1 min. 29 secs. It was a pretty race and the finish was a good one. Kukui Ranch horses won pretty well everything in sight and the owner was the recipient of much congratulation.
The last event was abandoned as there were no entries; it was a pity because most of the people were looking forward to seeing the Bronco Bucking race.
Many field events were pulled off and they were interspersed with the horse races.
There was a long delay in getting the races started and although the events were supposed to start in the morning nothing was got under way till 2 o'clock in the afternoon. The excursionists who went to the volcano all report having a great trip and that the weather was cold and clear at the Volcano House.

WATERFRONT NOTES
THE STRONGEST POWERED passenger steamer in the world using oil for fuel is predicted for the Oceanic Steamship Company liner Sierra which is now undergoing a general overhauling at San Francisco, preparatory to taking up a local run between that port and Honolulu. It is claimed that when the oil burning apparatus has been installed in the Sierra her engines will be capable of developing a speed of seventeen knots. It is also claimed that the Sierra will gain time at sea by reason of not having to clean her fires, as is done by coal-burners, and can thus be kept running at her best speed from port to port.
WHEN HONOLULU IS VISITED by the big Hamburg-American line steamship Cleveland bearing the six hundred and fifty or more Clarke tourists, the vessel will doubtless be decorated in flying colors. The excursion party is due here in February and it is claimed that on the homeward trip over seven hundred and fifty will participate in the cruise. Among the various secret societies represented in the delegation on board the Cleveland is a large party of Knights Templar, which includes Cortland Commander Number 59 now on its round the world trip.
PURSER PHILLIPS reports the inter-island steamer Claudine. Like-like, Kauai and Kaula at Hilo at the time of the sailing of the Mauna Kea on Sunday evening. The American schooner Olympic is reported to have arrived at the Hawaii port. The Mauna Kea sailed from Hilo at 5:20 on Sunday evening and was at her wharf at Honolulu at 8 o'clock. The vessel brought eleven packages of sundries and one automobile. One hundred and fifty-four passengers arrived by the vessel, including the large party of Volcano excursionists.

CAPTAIN FREDERICK MILLER has recovered sufficiently from the serious effects of his fall to take up the work of superintending the preparations for departure of the bark Alden Besse, which is soon to sail for the Pacific coast, taking a shipment of about 1,000 tons of scrap iron. The aged marine relic is being rapidly loaded with her heavy cargo. Captain Miller will take the command of the Alden Besse, while Captain Thornstrum, a well-known local waterfronter, will officiate as mate.

SIX HUNDRED tons of cotton formed the greater part of the through cargo on board the Japanese liner Tenyo Maru, which has arrived from San Francisco and is scheduled to depart for Japan ports and Hongkong at 5 o'clock this evening. The vessel carried but a little over a thousand tons to the Far East. Of the Chinese passengers, forty are deportees, gathered up at various parts of the United States, and placed under arrest for being in the country unlawfully.

S. A. KENNEDY has been appointed second officer of the liner Mongolia in place of G. Smith, and T. B. Barron has succeeded Peter Donnelly as third officer. Stanley James has been promoted from baggage clerk to second steward and J. Alberg, store keeper, has been detached and J. B. Jamison appointed in his place. Doctor Hieronymus, who made a special trip to Panama on the Newport, has rejoined the Mongolia as surgeon.

BOUND FOR HONOLULU and the Australian colonies, the Canadian-Australian liner Aorangi has sailed from Vancouver on New Year's Day. The vessel is due to arrive here on January 8 and will be given a prompt dispatch through the agency of T. H. Davies & Co.

ADVICES HAVE been received of the sailing of the American bark Annie Johnson from San Francisco on New Year's Day. This vessel is destined for Hilo and is said to be bringing down a large cargo of general merchandise.

IT IS EXPECTED that the United States army transport Sheridan from Manila will arrive here tomorrow morning. This vessel is bringing the Sixth Cavalry, which is returning from station in the Philippines. The transport is not believed will remain here very long.

JAMES B. CASTLE of Honolulu and James J. Dowling of Hecla, Koolau-poko, Oahu, have sold to Mrs. Annie R. Rice of Boston, Mass., all their right, title and interest in the five pieces of land situated at Pohaka and Papaloa, Kailua, Koolau-poko, Oahu, described in Land Commission award 6966 (three of which apas are covered by Royal Patent 2406) and containing an area of 8 acres and 5.38 chains. The monetary consideration was \$590.50.
SOME FOUR HUNDRED tons of coal was given the British freighter Masunda, which put back into port in distress last week. The Masunda is ready for sailing and will probably leave for Moji, Japan, this afternoon or evening.

MARKET IS STRONG AFTER VACATION

Resumption of business on the Stock and Bond Exchange this morning found the market strong but with comparatively few sales made during the holiday vacation.
All the principal announcements of the stock list had previously been made in the Bulletin during the week. Hawaiian Commercial's advance of the regular dividend to 25 cents a share is confirmed and other end-of-the-month regular dividends are announced as usual.
The largest sales of stock that have been made during the vacation are the five hundred shares of Paahau reported through the Bulletin and two hundred shares of Hutchinson at 17.
Quotations have strengthened. The cheaper stocks are higher. Waiwai has sold for 121 and is 122.50 asked. Hawaiian Commercial is 38 bid. Hilo Railway bonds are selling at 95 without the stock bonus. Olan sixes have advanced above par. Pioneer has slumped again to 196. Ewa is strong at 32.50. Generally speaking the appearance of the list is the harbinger of higher prices rather than lower.

KURIO MISLED, SAYS GOVERNOR
(Continued From Page 1.)
regard to the land laws and their administration. Like myself, he believes that the land laws can be improved upon.
"The conversation with the Delegate in San Francisco was good natured, and we agreed that there was nothing that could prevent us from pulling together in the future as we have in the past."
"Misled" was the adjective used by the Governor in referring to the causes that actuated the Prince in making his unqualified charges against the administration of the land laws.
"We have actually done more for the people interested in the Kamaoia lands than they asked," asserted the Governor. "When the Prince made his speech there he was led astray by the statements of the residents, who could have easily enlightened him on the true circumstances surrounding the policy of the administration in the Kamaoia lands. When I made my statement to the people there I told them that I thought some of the lands could be opened up with advantage, and with this end in view went to the length of having an expert from the Federal experiment station make a visit to the lands and report on the agricultural products to which the land was best suited. A short time after surveyors were sent to the district by the land department and proceeded with the work of making the surveys—long and difficult labor."
"It takes time to do these things, and three days after the Prince made his statements the maps were in the hands of Mr. Campbell."
"We have done more for the prospective purchasers of the Kamaoia lands than they ever asked us to do," reiterated the Governor, "and they could easily have told the Delegate of these facts."
The Governor appears to be in the best of humor towards the Delegate, and emphasized his opinion that the Delegate's statements were practically recalled by the tenor of the San Francisco conversation—the Governor being on his way back to the Territory, and the Delegate being bound toward Washington and his legislative labors of the session.
Secretary of the Interior Ballinger is seriously considering the suggestion that has been made that he would find it profitable to visit the Territory and look over conditions at first hand. Governor Frear states that Ballinger said that he expected that he might go to Alaska with President Taft, and in that event would find time to come down to Hawaii.

The Governor stated that Hawaii is sure to receive every consideration at the hands of the new administration and that all of the department heads with whom he talked were greatly interested in the welfare of the islands.
"Have you considered candidates for the office of Superintendent of Public Instruction in place of Mr. Babbitt?" the Governor was asked.
"I have not had time yet," was the Chief Executive's reply. "I am open to suggestions, and expect to receive a number of good ones."
During the course of the morning the Governor received all the heads of departments, including Superintendent of Public Works Marston Campbell, who dropped in to mention off hand that the Nuuanu dam was completed, whereupon the Governor smiled pleasantly and said that he hoped it would hold water—a sentiment that found an echo in the other departmental heads who were present.

THIEF GETS BIG HAUL OF COIN
Chief McDuffie is working on a mysterious robbery case that occurred on Saturday night. It appears that the store of W. Beakbane on Fort street, an engraver, was entered during the night and the sum of \$200 stolen.
Beakbane declares that he locked his safe, in which the money was kept, when he left for home on Friday. He was astounded to find that the safe was open when he entered his store in the morning, and on searching for the coin that should have been there he found that it was missing.
A strange circumstance was that \$240 which was in another bag in the safe was overlooked by the thief or thieves. Beakbane reported the matter to the detective bureau, and McDuffie at once started on the affair. Two youths who are employed at the store were taken before the chief and were subjected to an examination, but nothing of importance was gleaned from them.
The lady said that Beakbane did not lock his safe before departing for home, and Beakbane is equally certain that he did so. McDuffie has his own idea of what became of the money, and he hopes to lay the robber by the heels before long.

HONOLULANS WILL TOUR WORLD ONE YEAR
George R. Carter of the Hawaiian Trust Company of Honolulu leaves today by the Tenyo Maru for an extended trip around the world. His entire family will accompany him.
He does not expect to remain any length of time in Japan, but only a few days will be spent at Yokohama, after which the party will go to Hongkong, the Straits Settlements, Colombo, Aden and Port Said. From this latter port the train will be taken to Cairo, from which city steamers will convey the party down the Nile to the third cataract.
After leaving Egypt, Mr. Carter will tour Europe and the British Isles, returning to Honolulu by way of New York and San Francisco. He expects to be away about one year.

Yesterday afternoon a small girl was found by Superintendent P. W. Rider of the Kakaako Mission in a room over the Territorial Stables. The child, who is only about six years of age, was seemingly intoxicated, and had evidently been drinking some cheap kind of wine.

155 editorial rooms—256 business offices. These are the telephone numbers of the Bulletin office.

ARRIVED
Monday, January 3.
Port San Luis—Lansing, Am. stmr., a. m.

International Correspondence
Now at 1139 Fort and School Sts.

Oil now Leads all Mineral Productions in the State of California, Gold takes second place
Gold is in second place among the mineral productions of California. Petroleum takes the lead now by a substantial margin of \$6,000,000. Ten years ago California produced 2,000,000 barrels of oil. Last year it produced more than 48,000,000 barrels, a clear gain of 8,000,000 barrels over the product of 1907. The value of the 1908 product, in petroleum, is estimated by the state mineralogist at over \$28,000,000. At the present time at least one-half of the California listed oil stocks are paying dividends, and, as the price advances, so will dividends increase and stocks advance.
All investors should get in touch with this exceptionally profitable industry. Now is the time for investment in meritorious oil stocks such as we recommend. Ask for an oil book and market letter. Sent free upon request. Our representative in Honolulu, Mr. F. L. Kibler, is a member of the California Stock Exchange of San Francisco, and will be pleased to impart full information concerning the California oil business to those interested. Call on, or write him at the Alexander Young Hotel, Honolulu, Room 50. Lincoln Mortgage & Loan Co., 186 Geary Street, San Francisco.
